SUMMARY

Senior Frontend Developer and Interactive Specialist with 15+ years building high- end web applications, 3D motion design experiences, and interactive installations for clients including BMW, Airbus, Toyota, Mercedes- Benz, Red Bull, Siemens, and Warner Bros. Specialised in React, TypeScript, Three.js, React Three Fiber, and WebXR, with deep production experience in browser- based 3D visualisation, GLSL, and interactive UI — including large-format work for cinema screens, videowalls, and multi-monitor exhibits. Combines engineering rigour with a designer's education for motion, accessibility, and performance.

CORE SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Three.js, React Three Fiber, WebXR, WebGL, GLSL, GSAP, Vite, Git, Supabase / MongoDB / SQL
UI/UX: Design Systems, Accessibility, Responsive Design, Touch & RFID Interfaces, Multi-Monitor Installations
3D & Motion: Blender, Cinema4D, After Effects, Corona, Octane, Lottie, Adobe Suite
Design: Layout, Identity, CI/CD, Print, Landingpages, Visual Concepts

EXPERIENCE

SMMD Team — 2023- Present - Freelance / Remote

• Build interactive WebXR applications and real-time 3D experiences using Three.js and React Three Fiber.
• Develop Next.js applications and integrate GSAP animations into modern web interfaces.
• Recent projects:
Kassenärztliche Vereinigung Bayerns (KVB) (Next.js touch-table game)
Dornbracht (GLSL cloud prototype, Milan Design Week)
Rehau (WebXR product catalogue)
Visuarte (touch-table logo animation).

Mercedes Benz, TÜV SÜD — 2020- 2023 — Freelance / Remote – Sieber & Wolff

• Delivered 3D motion design, HTML5/CSS solutions, and frontend work across web and print.
• Mercedes-Benz (2021): Award concept visualisations and motion design; TÜV SÜD presentation motion graphics.

BMW, MINI, Toyota — 2017- 2019 · BECC Agency
• Created 3D visualisation and motion design for BMW, MINI, and Toyota.
• Concept and 3D animation for the BMW Group Headquarters videowall installation.
• Led motion concept for the Toyota IAA Frankfurt 2018 videowall.
• Developed GSAP- powered JavaScript motion for BMW's online corporate identity — increased user engagement by 40% (measured via heatmaps and session duration).

Airbus, MTU Aero Engines — 2015- 2017 · SMMD Team
• Designed and developed an interactive touch interface for Airbus Headquarters (Berlin) showroom; adapted to smaller screens and other languages for other locations.
• Built an RFID-driven touchscreen tech-expo interface for an Airbus in-house showroom exhibit.
• Created multi-monitor animations for the Paris International Airshow (MTU) and Airbus Ottobrunn.
• Developed interactive security training modules for international military personnel.

Spiegel Wissen — 2008- 2014 · UI/UX Consultant & Developer

• Designed and programmed the Spiegel Geschichte TV website — an online platform presenting trailers, episode information, and channel content for upcoming shows.
• Coded the selected design for the Spiegel Wissen TV website (same format: show/episode trailers, scheduling, and channel info).
• Designed and coded an interactive B2B tool (AS3) presented on Munich's largest cinema screen for a Spiegel Geschichte TV stakeholder/investor pitch event.
• Evaluated agency web design concepts across Germany’s leading design agencies; advised on branding, accessibility, and UI strategy.

SELECTED PROJECTS
Red Bull Austria HQ intranet · Red Bull TV interactive carousel · Swisscom installer package · Siemens microsites · Spiegel Geschichte interactive storytelling · Pro7Media campaigns (Warner Bros., 20th Century Fox, Deepsilver) · Audi Q5 unveiling · Strellson Menswear, JOOP, Olymp, Valisere Lingerie, Triumph International, Sloggi, (Junior Art Director - coma²)

EDUCATION
Bachelor's Degree in Communications Design — Blocherer Schule für Grafik Design, Munich
